Name of Facility:_____ Phone:_____ Fax:_____

Address:_____ City:_____ State:_____ Zip:_____

Location of the Grease Trap or Interceptor (ex: inside, under sink, outside in the parking lot):_____

Directions: Use this form to track maintenance of grease traps and grease interceptors. Use a different sheet for each grease trap or grease interceptor in your facility. A copy of this form must be included in the quarterly report. This form is available at www.fishers.in.us.

Date	Description of Maintenance Performed Choose from: Cleaned, Inspected, Pumped by a Professional Cleaner.	If Cleaned or Pumped: Amount of Waste Removed in Gallons	Maintenance Performed by:	Signature of Responsible Party:

All indoor grease traps are to be cleaned two times per week unless modifications have been granted.

All outdoor grease interceptors are to be cleaned every 90 days unless modifications have been granted.

Required cleanings do not guarantee compliance with the City's Sewer User Ordinance.

It is your facility's responsibility to maintain an acceptable FOG level regardless of cleaning schedule.
